

Think Before You Drive High

What Can Happen If You Drive High?

1. Legal Trouble

- You can get a DUI which includes huge fines, having your license removed or even jail time.
- Your record could follow you for years, from college to future jobs. It never goes away.

2. Your Car Isn't Safe

- Your ride could get towed or impounded.
- If it's your parent's car... good luck explaining that.

3. Losing Freedom

- Imagine missing hanging out with friends or going to events because you can't drive.

4. Friend Reactions

- Your friends might think twice about being in the car with you.
- Being high behind the wheel can ruin your reputation fast.

5. Real Danger

- Slowed reactions and poor decisions can lead to crashes.
- Injuries—or worse—aren't worth it for a quick high.

Be an Influencer, Not a Risk-Taker

Make smart choices. Say no to driving high, and your friends will notice. Set the trend.
